Town Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of East Kingston in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said East Kingston on Tuesday, the fourteenth day of March, next at two of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the Town will vote to authorize the Selectmen to hire money in anticipation of taxes.

4. To see if the Town will vote to raise and appropriate the sum of \$500.00 for maintenance of the Fire Department.

5. To see if the Town will vote to raise and appropriate the sum of \$400.00 to reimburse the Volunteer Firemen's Association for money paid out by them to install the fire well at the junction of Willow and Kingston Roads.

6. To see if the Town will vote to raise and appropriate the sum of \$204.02 against the State Appropriation of \$1,360.16 for Class V Road Assistance.

7. To see if the Town will vote to request the State Tax Commission, or a private concern, to assist the selectmen in appraising the improved lands and buildings subject to taxation, and appropriate the sum of \$2,100.00 to cover anticipated costs. If the State Tax Commission makes the appraisal, then the sum of \$700.00 may be raised and appropriated annually for the years 1961, 1962, and 1963.

8. To see if the Town will vote to raise and appropriate the sum of \$125.00 to purchase a filing system for recording commercial papers, as required under the Uniform Commercial Code, N. H. RSA 283-A.

9. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this twenty-eighth day of February, in the year of our Lord nineteen hundred and sixty-one.

Auditors

Report of The Superintendent of Schools

To the School Board of East Kingston :

The school year 1960-1961 opened with the following teaching staff :

Mrs. Clara Merrick, Brown's Academy, Principal,
Grades 5-6

Mrs. Margaret Tilton, Grades 3-4

Mrs. Blanche Loch, Grades 1-2

Mrs. Eleanor Henry, Music

Miss Mary Shea, School Nurse

Miss Gemma Jean, Assistant School Nurse

This is the same competent and experienced staff which taught last year and I believe East Kingston is fortunate to have them again furnishing the educational training for the girls and boys.

The favorable action of the Exeter School Board upon the request of the East Kingston School Board to admit the grade seven and grade eight pupils from East Kingston a year earlier than the completion date of the high school addition prevented the necessity of the housing of some of the students this year in temporary quarters. It has also made it possible to assign two grades to each classroom which gives each teacher a more reasonable load in terms of the number of preparations and the number of pupils. The action of the Exeter Board is an example of one school district's willingness to assist another district in solving a problem even if added inconvenience is the result, and it is this kind of cooperation which I hope can continue to exist between districts.

The problem of housing the junior and senior high school pupils was resolved when the Exeter School District voted to build an addition to its high school building. This action was followed by the vote of the East Kingston School

District to enter into an equitable contract agreement with Exeter for tuition pupils to attend Exeter High School for a period of ten years.

The form of the agreement has been prepared and approved by the State Department of Education and by the Exeter School Board. The tuition rates and the rental fee for the year 1961-1962 have been announced as \$352 for junior high pupils and \$429 for senior high pupils. The estimated per pupil cost for junior high students for 1960-1961 is \$330 plus the rental fee of \$22; the estimated per pupil cost for senior high students for the current year is \$407 plus the rental fee of \$22 resulting in these rates. The average cost per high school pupil as announced by the State Department for tuition pupils for next year is \$436 so that the Exeter rate even with the rental fee continues to be below the state average.

In estimating the per pupil costs the following current expenditures were not included: tax for state wide supervision, transportation, salary of the Helping Teacher, hot lunch programs, reimbursement from the National Defense Education Act, tuitions and capital outlay items.

Also, in determining the per pupil rental fee instead of using the actual number of pupils which is estimated as 900 for next year at the junior-senior high school, the Exeter School Board voted to use the number for the capacity of the building which will be 1200 pupils. This decision reduced the amount of the rental fee by about eight dollars per pupil.

I believe that the above action indicates that the Exeter Board has tried to be very fair in preparing the contract agreement and in its attempt to keep the tuition rates as reasonable as possible.

The addition to Exeter High School will provide improved and enlarged facilities for science, shop courses, commercial subjects, music and cafeteria services. It will also provide a Language Laboratory, a library which is separate from the study hall, an improved guidance area

and eleven classrooms. This will complete a modern school plant of which Eeter and the districts which send their students to this school can indeed be proud.

Mr. Donald Elsemore was elected to the Helping Teacher position last January. I would like to devote a part of this report to his statement of some of the work which he has been doing especially as his role is that of Supervisor of Elementary Education which gives him the opportunity to work with the elementary teachers and to assist them in their teaching. He reports as follows:

“Parents of elementary school children have certainly been aware of a new pupil report card this year. Its adoption was the result of much work on the part of the teachers under the guidance and direction of the Helping Teacher. Part of this work took place during the summer vacation months. The Report Card Committee carefully studied a large selection of sample cards from all parts of the country. They read the latest educational research on the subject. From this material and from the many personal thoughts and opinions of committee members came the present report card. Each portion of the card evolved only after much thought and deliberation, discussion and revision. The new card attempts to grade the child in two ways: (1) According to prescribed grade standards — this appears necessary if pupil marks are to have definite meaning to parents, teachers, and school officials. (2) According to the ability of the child — we all know that children differ in their ability to learn. It is quite impossible for all children to achieve at the same level regardless of effort. Thus a mark based on individual ability and effort seems in keeping with sound principles of child development. “The combination of these two marks gives a

much clearer picture of each child than did the former undefined single mark.

“The purpose of marking is to help each child achieve to the very best of his ability. It also serves to help parents better understand their child’s school progress so that they may offer the right kind of parental assistance. This card attempts to fulfill these objectives. Although the perfect report card may never be invented, we feel that this new card is certainly a step in the right direction in the evaluation of pupil progress.

“Another project now in progress under the direction of the Helping Teacher is the development of a curriculum guide for the elementary arithmetic program. This is a year-long project which involves a great deal of work on the part of all participants. The purpose of the guide is to outline the arithmetic concepts to be taught in each grade and to offer suggestions for improving the quality of its teaching. Mr. George Cunningham, N. H. State Director of Mathematics, is serving as the mathematical consultant to the group.

“The result of this work should serve as a valuable aid to both old and new teachers in their arithmetic teaching. It should also help to standardize instruction throughout the supervisory union so that all youngsters may enter high school with the benefit of a common mathematical background. The group work involved in the formation of the guide has also been of great value in the coordination of teacher thinking.

“These two projects have been given as examples of the type of work done by the Helping

Teacher. Daily work is greatly varied and included many other activities. Any task which might serve to promote the highest of educational standards in the community might well be tackled by the Helping Teacher."

East Kingston became eligible for Federal Aid under Public Law 874 last year and for the school year 1959-1960 is expected to receive about \$1,300. For 1960-1961 the first payment should be received before June 30 in the amount of \$1200.

As a matter of public information on days when there is to be no school due to inclement weather an announcement will be made over the Dover radio station WTSN, 1270 on the dial, starting at 6:45 am. and over the Portsmouth station WHEB, 750 on the dial, starting at 7:15 a.m. during December and January and at 6:45 a.m. during the other months of the year.

The Parent-Teacher Association deserves credit for its contribution to the educational needs of the school.

I call your attention to the reports and tables which follow.

I take this opportunity to express my sincere appreciation to the citizens, the members of the School Board and the teachers for their continued support and cooperation.

School Health Report

To the Superintendent of Schools:

If our report were to be presented under a title other than "School Health Report" we would entitle this "Health Services for Our School Children—How Well Are They Met?"

School health services comprise those procedures designed to determine the health status of the child, to enlist the child's interest in protecting and safe-guarding his health, to help parents to understand their children's health needs, and to take the necessary steps to provide suitable treatment for disease and correction of physical defects.

The following chart shows the essentials of a health service program and indicates existence of same in our communities.

A desired goal, but due to ever increasing demands of the nurses in areas of emotional problems, physical needs, etc., this is only touched upon lightly. We hope to be able to construct a plan to fulfill this much needed health phase in the future.

★ Available

● Adequate

It is recognized that the school provides only a part of the total experience of the child. He lives in a home in a community and has a multitude of daily experiences, not directed by the school, which affect his health behavior. The cooperative action of the school, home and community is essential if the most effective type of health direction is to be developed.

Communication with communities through P.T.A.'s and other civic organizations has ignited an interest in our children which continues to grow. We look ahead and continue building a healthier future and improved living for our children.

Report of the Music Supervisor

To the Superintendent of Schools:

The purpose of a music program in the schools is to create in all pupils an interest in music, and to stimulate this interest by presenting a variety of musical activities in which they may participate.

It is hoped that from these musical experiences all will feel that music can bring them much enjoyment throughout their lives.

Musical activities for the year 1960 included ear-training, rhythms of various types, work with rhythm band, action songs, folk songs and dances, music appreciation, work with tonettes, learning the fundamentals of music, note-reading, singing in unison and in two and three parts, singing games and square dances.

At the April meeting of the P.T.A. the pupils of the Pound School presented the operetta, "The Selfish Giant."

The 1960 graduation exercises at Brown's Academy held special significance as in 1961 there would be no graduation exercises, due to the fact that the pupils in the seventh and eighth grades would be attending school in Exeter. In addition to special graduation music, an operetta was presented by the pupils of the three upper grades, under the able direction of Mrs. Merrick. I feel sure that these annual programs will be greatly missed.

There were welcome visitors to the music classes during Education Week in November.

Mrs. Tilton and Mrs. Merrick closed the year with Christmas programs held in their respective rooms. Both programs included special Christmas music.

In closing, I wish to thank Mr. Hoyt, Mr. Elsemore, the members of the School Board, the P.T.A., the teachers and the parents for their co-operation.
